Crop Competition Fortnight.

In pursuance of the resolution passed at the Joint Meeting of the Advisory Board and the Governing Body of the Indian Council of Agricultural Research held at Dehra Dun on 8th May 1951, the Government of India have suggested that suitable steps should be taken immediately in the State to organise a "CROP COMPETITION FORTNIGHT". The Government of India attach considerable importance to Crop Competitions in view of their great potential importance in increasing the per acre yield and thereby assisting in solving the country's food problem to an appreciable extent.

According to the suggestion of the Government of India, a scheme suitable to the State has been formulated by this Government in consultation with the Government of India. The Competitions are proposed to be held at village levels only in the State this year. These Competitions will be conducted by the Food Production Commissioner with the

co-operation of the Director of Agriculture and the Deputy Commissioners of Districts. All entries for such competitions shall be sent by the participants to the Deputy Commissioners of Districts concerned on or before 31st July 1951.

The above competitions are conducted with a view to help the Food Production Drive. Government, therefore, appeal for earnest co-operation so as to make the scheme successful.

The rules for the Competitions are given below for the information of the public :—

Rules Relating to Crop Competitions.

1 This competition applies to paddy grown during the monsoon of 1951.

2 The Competition will be conducted in all villages where paddy is grown on a wide scale.

3 The Competition is open to all growers who raise paddy on an area of not less than one acre in one single block. The area that will be actually estimated for yield will be limited to one acre. The unit of Competition should comprise of at least 20 contestants whether in the same village or group of villages.

4 Each intending competitor will be given an entry form at the beginning of the crop season by the local Agricultural Officer. These entry forms which require particulars of Survey Number, Anubavadar, the nature of lease, if any, etc., should be filled in by the competitor and returned to the local Agricultural Officer together with a treasury challan or cash payment of Rs. 1-4-0. Receipts for cash payment will be issued by the Department.

5 The entry forms should reach the Local Officer within a date fixed by the Department and indicated in the entry forms.

6 Soon after receipt of applications, a meeting of all the competitors or, as many as are available, will be called, where the details of the scheme and *modus operandi* for estimating the yield per acre by crop cutting experiments will be explained.

7 Judging committees will be formed for each competition area, each committee consisting of at least two non-officials.

8 After the crop cutting experiments are conducted, the crops thereof will be threshed and winnowed properly, weighed and measured green then and there. Only green weights will be recorded on the entry form and the record attested by the members of the committee, the local Shanbhogue and Patel and three Panchayetdars. The crop after weighment will be restored to the grower.

9 The results of the competition will be intimated to the winners by post. Only those who have produced the First, Second and Third highest yield per acre will be eligible for prizes.

The names of winners will be announced in the *Mysore Gazette*.

10 One price of Rs. 10 will be awarded for each village.
